Dedra- Made it thru first budget cut

Marcus- Cataloged all EPA docs in library, online map course

Sandy- COOP exercise Eco Horizon HQ to R8, got kudos

Wendy- The ECO Student

Vicki- Making to Sept 30 with 21 years, EPAs largest FOIA in history

Caroline- hosted national library conference, riley learned her numbers, colors, shapes

Rhonda- survived drive to Vail

Chris- deletion of OU9 California gulch and party

Karen- getting involved in Libby site, planning public meeting in May, factsheet, Comm Strats, risk assessment training, International Smelter 5 year review, first opportunity for emergency response

Jennifer- juggling many things at many sites without anything bad happening, remedial action went smoothly due to communication planning

Pat- Standard Mine, got ROD signed, cleaning out mining shaft, Crested Butte, Davenport, Flagstaff 5 year review and ESD, OU2 Summitville blasting and drainage is blocked

Libby- multi-tasking, Community Engagement Network, central website for outreach coordinators for state and public use, pilot launched, filling Sonya's shoes, Yellowstone Oil Spill, Libby IG Report

Lisa- press events, draft EIS on Windy Gap, very political, Denver Post article not bad

Tim- web changes everyday very frustrating, muddle through with worst software ever, Pavillion, 861 documents, 400 more to go, each step is contested

Bill- make superfund look good, web and factsheets

Tom- changing up displays in EISC, green building display

Lydia- inventory, checked all documents to make sure they are all ok

Matt- Sand Creek Seep refined gas fill, very important media project, 100% pick up on press release

Paula- new leader of OCPI !!

Whitney- 8net moving to Drupal platform
